1. Introduction & Login

1.1 Welcome to Client Portal

Welcome to the ACME Security Services Client Portal - your secure gateway to all security-related documents, service information, and communication with our team. As a valued client, you can access: - Personal security documents - Company certificates and licenses - Service details and assigned personnel - Document request system - Service status updates

1.2 First Time Login

Access Portal: Visit your portal URL provided by ACME Security

Login Credentials: - **Username:** Your registered email address - **Password:** Provided by ACME Security (change on first login)

Password Reset: If you forget your password, use the "Forgot Password" link.

1.3 Portal Navigation

The left sidebar provides access to all main sections: - **Overview** - Dashboard and quick stats - **Documents** - Your personal documents - **Company Documents** - Shared company files - **Document Requests** - Request new documents - **Management** - Service details and personnel

2. Dashboard Overview

2.1 Welcome Panel

Your personalized dashboard shows: - Welcome message with your name - Quick statistics of your account - Recent activity and notifications

2.2 Key Statistics Panel

Statistic	What It Shows	What It Means For You
Total Documents	Documents in your portal	All files shared with you (personal + company)
Today's Uploads	New documents added today	Recent updates from ACME team
Company Documents	Shared company certificates	Important legal and compliance documents
Service Status	Your service plan status	Active, Pending, or Expired services

2.3 Recent Documents Section

Displays the 6 most recent documents with: - Document name & type - Personal/Company tag - Upload time - Quick actions (View, Download, Request)

2.4 Quick Actions Panel

One-click access: - View All Documents - Company Documents - Service Overview - Contact Support

2.5 Your Information Panel

Shows your account details: - Verification status - Contact information - Account type and membership date - Service plan details

2.6 Portal Overview Metrics

Real-time metrics: - Document Security (encrypted) - Available Documents count - Service Status - Support response time

3. Documents Management

3.1 Document Categories
